#### Ajax with Price Slider

General

Enable Module	<input type="text" value="Yes"/>	[STORE VIEW]
Step Option	<input type="text"/>	[STORE VIEW]
<small>▲ By default, the slider slides fluently. In order to make the handles jump between intervals, you can use this option. The step option is relative to the values in range.</small>		
wNumb Format for labels	<input type="text" value="decimals: 0, thousand: '"/>	[STORE VIEW]
<small>▲ More options <a href="https://refreshless.com/vnumb/options/">https://refreshless.com/vnumb/options/</a></small>		
Enable Multiple Select	<input type="text" value="Yes"/>	[STORE VIEW]
Hide Active Filters	<input type="text" value="Yes"/>	[STORE VIEW]
Enable Ajax for Layered Navigation	<input type="text" value="Yes"/>	[STORE VIEW]
Enable Ajax for Toolbar	<input type="text" value="Yes"/>	[STORE VIEW]
Callback JS Code	<input type="text" value="msAjaxCallback();"/>	[STORE VIEW]
<small>▲ Will be called after ajax request is completed.</small>		
Enable RWD theme callback	<input type="text" value="Yes"/>	[STORE VIEW]
<small>▲ Enable this option if your theme is RWD or based on RWD.</small>		

### Step Option

By default, the slider slides fluently. In order to make the handles jump between intervals, you can use this option. The step option is relative to the values in the range

### **wNumb Format for labels**

You can use wNumb options to format prices output. You can use additional options described here <https://refreshless.com/wnumb/options/>

### **Enable Multiple Select**

This option allows you select multiple attribute values with checkboxes

### **Hide Active Filters**

Hides active filters on the filter panel

### **Enable Ajax for Layered Navigation**

If “Yes” then AJAX request will be used to update results instead of whole page refresh.

### **Enable Ajax for Toolbar**

If “Yes” then AJAX call will be used on the toolbar instead of whole page refresh

### **Callback JS Code**

You can use custom JavaScript code callback after AJAX call to do custom jobs after update

### **Enable RWD theme callback**

Enable this option if your theme is RWD or based on RWD

## **2. Using**

After installation and configuration you will see improved layered navigation on the frontend

## Example of Layered navigation panel with enabled module
